Graficul de tip „pavaj" se citește de la stânga la dreapta și de sus în jos, în ordinea importanței tematice, termenii fiind grupați conform înrudirii semantice. Mărimea și culoarea „dalelor" reflectă frecvența conceptului în corpus. În partea dreaptă, puteți urmări propozițiile care conțin conceptul ales, numărul de ocurențe și reprezentarea grafică prin bare a acestora.
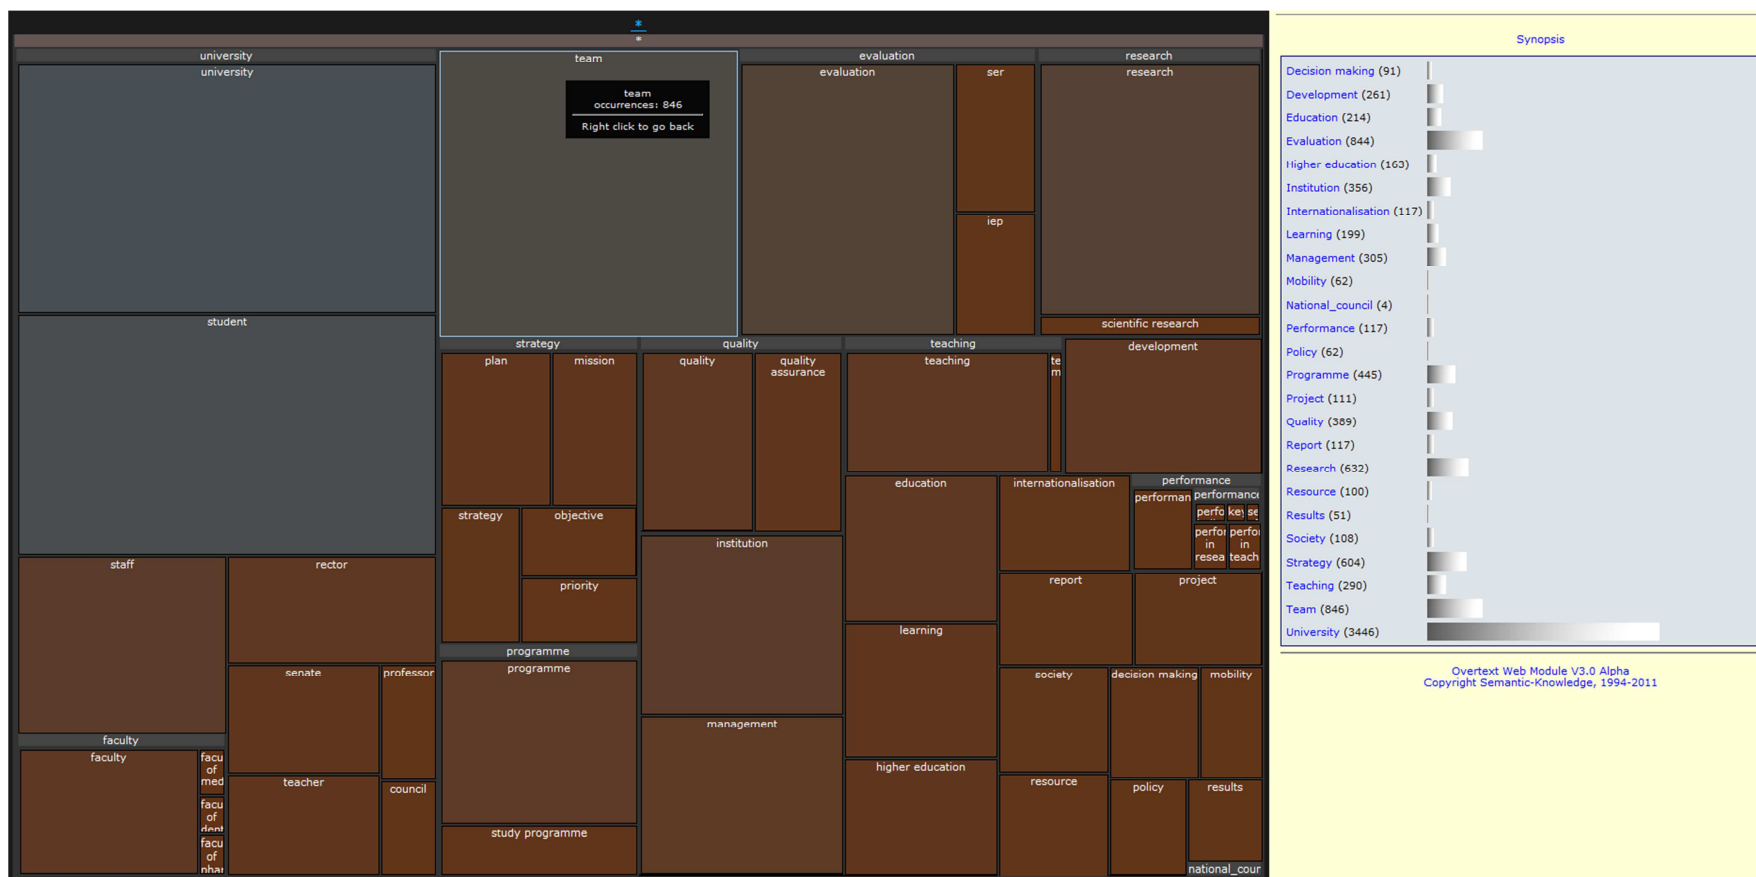

Această reprezentare grafică dinamică reprezintă termenii pe care ne-am propus să-l observăm în raport cu o centralitate convențională. Pentru public este una din modalitățile de cunoaștere a scenariului folosit în analiză, cu clasele și subclasele acestuia.

Acesta este un grafic de relații între conceptele alese pentru analiză. Termenii se distribuie în raport cu un concept central și care presupune că are cele mai multe relații cu ceilalți termeni din universul conceptual. Liniile verzi indică legături puternice, mai frecvente.
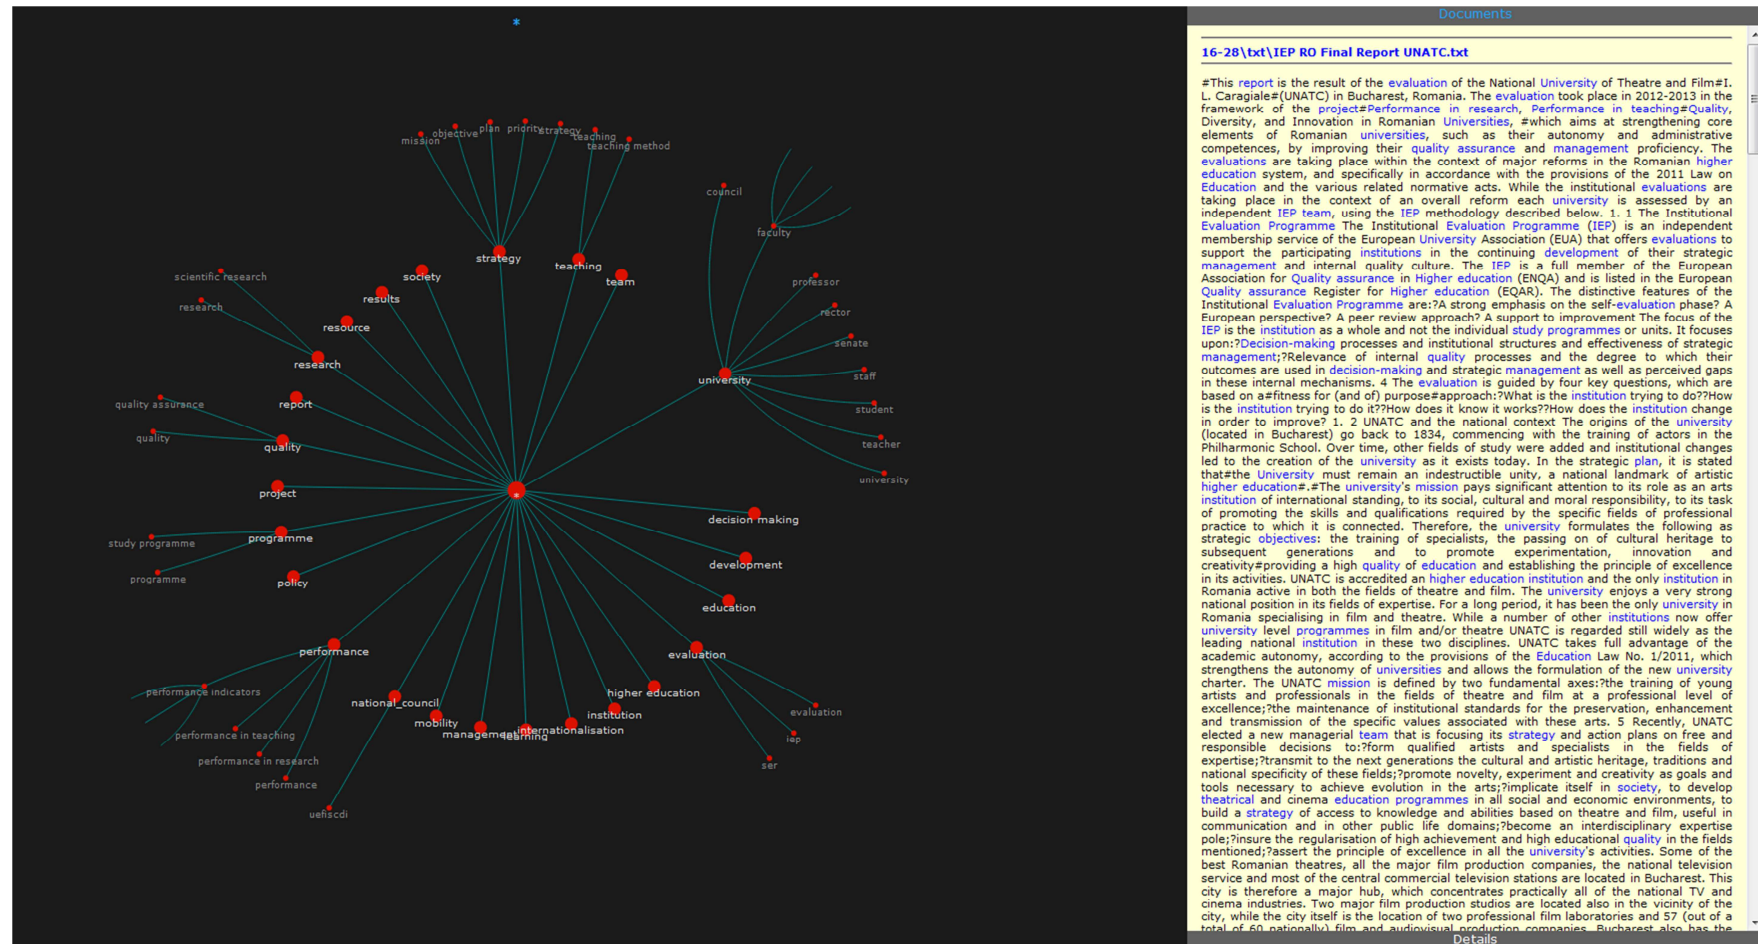

Matricea conceptuală (*matrix data*) dispune termenii pe orizontală și verticală, permițând să vedem numărul de texte în care apar.

Synopsis: Internationalisation:

16-28\txt\IEP RO Final Report UNATC.txt

Luc François (team coordinator), adviser to the Rector for Internationalisation, Ghent University, Belgium The team would like to thank the rector, vice-rectors, deans, directors of departments, members of the self-evaluation

internationalisation and to improve current university systems and processes. Over the course of its two visits to the university

and consideration of this feedback are made manifest to the student body. 19 7. Internationalisation Achieving a high level of international recognition has become a priority for Romanian universities#in the more specific case of arts universities this is linked to both

But at the same time, the team noted a lack of a real internationalisation policy. At present, the internationalisation agenda is limited more or less to being realised through the individual and personal contacts of faculty staff rather than being managed strategically.
